EDUCATION

- Bcs.Computer Science undergraduate at Eastern University in Sri Lanka
- G.C.E. A/L Examination - Physical Science 2021/22
 - Combined Mathematics - C
 - Physics - C
 - Chemistry - C

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- PHP
- Java
- React
- Bootstrap
- Sass
- Git
- MySQL

SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

PROFILE

I am an enthusiastic, self-motivated, and dependable individual with strong organizational skills. As a computer science undergraduate, I am adaptable to new challenges and eager to learn. I excel in both collaborative environments and working independently. With a keen eye for detail, I thrive under pressure and consistently meet deadlines.

PROJECTS

To - Do List App

A dynamic and user-friendly to-do list application built with HTML, CSS, and JavaScript. It allows users to efficiently manage tasks by adding, editing, and deleting them. With a sleek design and intuitive interface, this app enhances productivity and task organization.

Interactive Piano

A dynamic virtual piano built with HTML, CSS, and JavaScript. Users can play piano keys using either mouse clicks or keyboard inputs, with realistic piano sounds enhancing the experience. This project blends interactivity with sound, offering a fun and musical web development application.

Pascal's Triangle Generator

A dynamic Pascal's Triangle generator built using HTML, CSS, JavaScript, and PHP. This tool allows users to generate the triangle based on input, with a responsive design. PHP handles the logic, while JavaScript provides real-time interactivity for smooth calculations and visual updates.
